## The new world of cyber attacks and defense

Cyber attacks have become so commonplace that it's difficult to both qualify and quantify. However, regardless of the complexity, Cyber Resilience must be at the top of the priority list for all companies, regardless of industry, geographic location, or size.

Here are just a few numbers to put the importance of Cyber Security and Resilience into perspective.

A CYBER ATTACK OCCURS  
**EVERY 39 SECONDS**

(UNIVERSITY OF MARYLAND)

THE AVERAGE COST OF A DATA BREACH IS  
**\$3.86 MILLION**

(IBM)

COMPANIES THAT CONTAINED A BREACH IN LESS THAN 30 DAYS SAVED MORE THAN \$1 MILLION COMPARED TO THOSE THAT TOOK MORE THAN 30 DAYS (IBM)

THE COST OF LOST BUSINESS AFTER A BREACH FOR US ORGANIZATIONS ADDS UP TO

**\$4.2 MILLION**

(IBM)

88% OF COMPANIES WITH OVER 1 MILLION FOLDERS HAVE OVER 100,000 FOLDERS OPEN TO EVERYONE (VARONIS)

41% OF COMPANIES HAVE OVER 1,000 SENSITIVE FILES OPEN TO EVERY EMPLOYEE

(VARONIS)

**3%** OF A COMPANY'S FOLDERS ARE PROTECTED

(VARONIS)

22% OF DATA BREACHES IN 2017 INVOLVED THE USE OF STOLEN CREDENTIALS
