

Delivering Excellence in Health Solutions

for the Canadian Oil & Gas Industry

Calian Health Services

The oil and gas industry strives to provide a secure, safe and healthy work environment for their employees – corporate success depends upon it.

As the largest and most diversified network of health care professionals in Canada, Calian works in partnership with oil and gas companies to deliver quality health care services to their employees.

Our experience is based on our network of over 1500 health professionals, in 65 different categories across Canada with over 5 million patient visits each year.

We understand that supporting the health care requirements of your workforce can be a demanding task. With over 10 years in providing a full-spectrum of health services, Calian Health services experts can design customized, purpose-built health care solutions to support your specific requirements resulting in a full-service, worry-free solution that allows you to concentrate on your core business.

Calian health services include:

- On-site health professionals
- Primary, urgent care and occupational health care medical clinics
- Health care management services

A 30-year-old publicly traded Canadian company; Calian has an experienced management team, strong financials, a culture of continuous improvement and a track record of delivering high quality health services to our clients. We pride ourselves in our long standing customer relationships based on our focus on customer service.

Calian is proud to employ 300 Albertans.
