

# Delivering Excellence in Health Solutions

*for the Canadian Oil & Gas Industry*

# Calian Health Services

The oil and gas industry strives to provide a secure, safe and healthy work environment for their employees – corporate success depends upon it.

As the largest and most diversified network of health care professionals in Canada, Calian works in partnership with oil and gas companies to deliver quality health care services to their employees.

Our experience is based on our network of over 1500 health professionals, in 65 different categories across Canada with over 5 million patient visits each year.

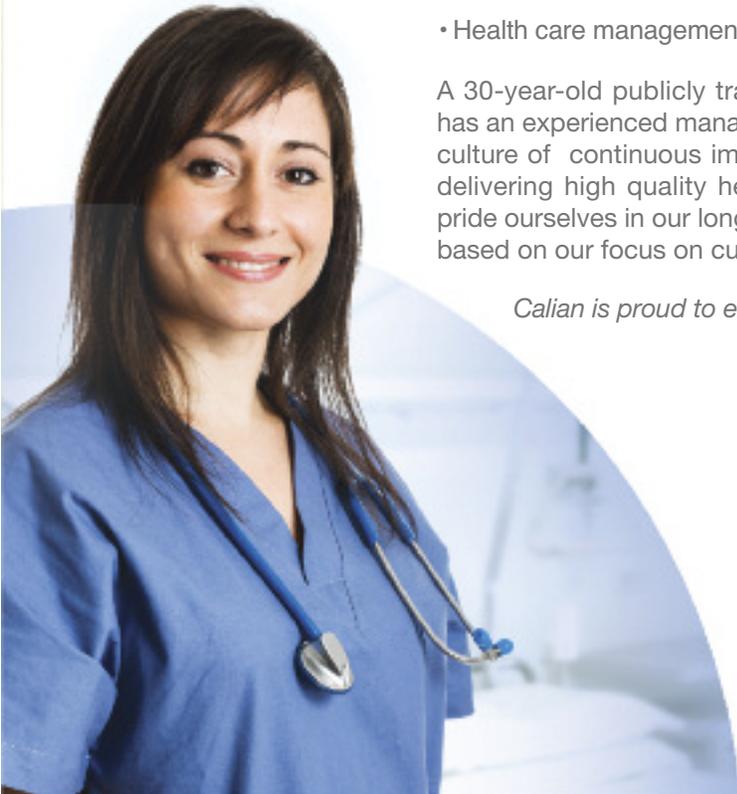

We understand that supporting the health care requirements of your workforce can be a demanding task. With over 10 years in providing a full-spectrum of health services, Calian Health services experts can design customized, purpose-built health care solutions to support your specific requirements resulting in a full-service, worry-free solution that allows you to concentrate on your core business.

## Calian health services include:

- On-site health professionals
- Primary, urgent care and occupational health care medical clinics
- Health care management services

A 30-year-old publicly traded Canadian company; Calian has an experienced management team, strong financials, a culture of continuous improvement and a track record of delivering high quality health services to our clients. We pride ourselves in our long standing customer relationships based on our focus on customer service.

*Calian is proud to employ 300 Albertans.*

## On-Site Health Professionals

### Canada's largest and most diversified network of health professionals

With the largest and most diversified network of health professionals in Canada, Calian helps our customers to deliver and manage quality health care services for long-term, short-term, cyclical or temporary health care services. The result is quality health services while 'right sizing' the health service workforce.

### Quality health services you can rely on

Recruiting and ongoing management of medical and health professionals is a challenging task. Calian is a leader in providing and managing skilled health professionals for our customers.

### Turn-key service offering

Calian is proud to be able to offer a full-spectrum of health services. The difference is the professional and consistent delivery of quality health services.

# Health Clinics

Calian designs, builds, recruits for, manages and operates Primary and Urgent Care Clinics and Occupational Health Clinics.

## Calian's professional medical clinic services include:

- Day-to-day management and administration
- Recruitment and workforce management
- Design and construction
- Equipment, facility, and technology such as Electronic Medical Record (EMR)

If you are looking for a partner to take on the mandate of helping you to run your clinic(s) operations, Calian is the partner you can rely on for professional and quality services.

From Occupational Health Clinics in the Oil Sands to Urgent Care and Medical Management Services, Calian is your full-service, quality health service provider.

## Primacy Clinics

Primacy, a Calian company, is one of the largest medical clinic management companies in Canada with over 140 clinic locations at Loblaw Store locations across Canada. More than 450 physicians now utilize these sites as their main practice locations to provide primary health care services to over 3.5 million patients per annum.

## Calian Managed Urgent Care and Family Practice Clinics

Calian manages and operates two medical clinics in Ottawa. This means that Calian knows what it takes to run a successful clinic from design and construction to recruiting and day-to-day management and administration. For you it means an experienced partner that you can rely on to deliver the quality health care you need.

## Med-Team Clinic in Kanata

Located at 99 Kakulu Rd. in Kanata, Ontario for over 29 years, Med-Team has been a long-standing health care provider to the Kanata and the greater National Capital Region providing family practice.

## Westboro Family Care Centre

The Westboro Family Care Centre is located upstairs at the Real Superstore at 219 Richmond Road in Ottawa, Ontario. This clinic offers both Walk-in and Family Practice services.

# Fort McKay Health Clinic

Located in the Fort McKay Industrial Park, in the heart of the oil sands, the Fort McKay Health Clinic provides pre-employment medicals, drug and alcohol testing, injury management, medical care, immunizations, and medical surveillance.

Our occupational health professionals respond quickly to employees' needs and offer appropriate treatment in a clinic that is dedicated to occupational medicine. We are committed to keeping workers healthy and safe, giving them prompt medical care after an injury, and helping them remain productive and active during recovery.

## Clinic Services

### Drug and Alcohol Testing

- Full suite of tests

### Occupational Health

- Audiometric Testing
- Vision Screening
