Approach

- **In person service:** we can have resources support you at your location directly.
- **Remote service:** where possible we can use telemedicine and remote working solutions to provide value for you.
- **Program Management for turn-key solution:** we will manage and administer delivery of the service as a turn-key offering.

Emergency Operations Centres

Support to any Emergency Operations Centre

Calian supports emergency operations centres for a range of high-consequence situations. We can deliver this service to you in person, or remotely to ensure continued isolation.

Planning

Anticipating how the crisis is evolving and developing plans to meet it.

Operational Support

Providing real-time support to operations addressing the crisis.

Logistics

Forecasting and planning of logistics needs and supply chain integrity

Crisis Communications

Developing public messaging on the risk, response, and public advisories.

Health Care

**Health, mental health,
dental, social support**

Calian delivers healthcare professionals for the Military, CBSA, the Correctional Service, RCMP, Veterans Affairs, and a range of private sector partners.

Calian can deliver on any health need.

Resource / Needs Assessment

Determine resources to meet needs (doctors, nurses, dentists, mental health, pharmacists).

Providing Health Professionals

Delivering the health professionals you need wherever you need them in Canada.

Indigenous Communities

Calian delivers medical specialists (doctors, nurses, pharmacists, etc.) to communities through ISC or local programming.

IT & Cyber Security

Leading-edge solutions that meet any security need

Calian delivers IT and cyber security services to meet public and private sector needs. We can customize our service offering to meeting your network

Network Specialists

Providing IT services and solutions to meet large organization's network continuity needs.

Cyber Security Specialists

Providing networks operations security and end-point security solutions using industry leading products.

Calian is currently providing these services for Canadian defence and security networks

Contact for Further Discussion

Calian is ready to discuss how we can support the Government of Canada's response to COVID-19 with customizable solutions to meet both remote and in-person needs.
