

# Family Reunification Planning

is a great way to make everyone feel safe!

Send your kids back to school with the peace of mind that comes with knowing what to do in case of a disaster or earthquake.

In their backpacks add:

A comfort kit

A card with the contact name and phone number for out of town contact

A card with reunification instructions

Don't forget to send the contact and reunification information to the school... just in case!

We think about the unthinkable,  
so you can keep your children safe.
